INTERNSHIP & WORK EXPERIENCE

EY-Parthenon Jun 2024 – Jul 2024
Summer Internship

Value Creation in Media & Entertainment

- Researched smartphone usage data across countries and maintained structured Excel reports
- Conducted competitor and market analysis on global TV brands
- Learned and assisted in project scoping and stakeholder collaboration. Built Gantt chart to handle project planning and deadlines
- Supported the creation of a strategic media presentation using PowerPoint. Built visual and data visualisations (Stacked charts, Sankey chart to represent budget allocations)

PROJECTS

Full stack e-commerce website for shoes

Designed and developed a fully functional e-commerce platform for selling shoes

- Implemented a user-friendly interface with React.js for seamless navigation and product browsing
- Integrated a backend using Node.js and MongoDB for efficient order processing and inventory management
- Implemented secure authentication and payment gateway integration for smooth transactions
- Developed an admin panel to manage products, orders, and user interactions

AI Trip Planner

Developed a full-stack AI-based travel planning web application

- It generates personalised trip itineraries based on user inputs such as destination, travel dates, duration, number of people, and budget
- The system offers multiple budget tiers and produces detailed day-wise plans including places to visit, accommodation, food options, and cost estimates
- Implemented user authentication and real-time itinerary generation with a scalable and practical design.
